Summary

At Sabayat Technologies, as a Mobile Application Developer, I expertly resolved Eatsipy app issues, enhancing launch performance by 90%. My proficiency in Python and Flutter, alongside a collaborative approach with QA teams, underscores my technical acumen and teamwork skills, aligning with key employer-sought competencies.

Key Expertise

- Flutter Development - Hybrid Mobile Application using Flutter/Dart
- Google Cloud/Firebase
- Object-Oriented Programming (OOP)
- Proficient in version control systems like Git and Bitbucket, project management tools like Jira, and development environments such as Android Studio and PyCharm.
- Intermediate Proficiency in Python Development & Scripting
- Data science modelling and analysis using libraries such as NumPy, Pandas, Matplotlib

Work Experience

Mobile Application Developer | 06/2024 - Current

Sabayat Technologies, Mohali

- Resolved technical issues related to Eatsipy mobile application development.
- Worked closely with QA teams to ensure application met quality standards before release.
- Implemented improvements to boost site performance, improved launching page performance by 90%.

Education

MCA, Artificial Intelligence and Data Science | 2024

Poornima University, Jaipur

B.Sc., PCM | 2021

DBRAU, Agra, Uttar Pradesh

Projects

Eatsipy Food Delivery App :

I am currently part of the development team for **Eatsipy**, a food delivery platform connecting customers with partner restaurants. My key responsibilities include :

- Developing and implementing new features.
- Fixing critical bugs to ensure app stability.
- Optimizing performance for a seamless user experience.

This role has strengthened my skills in feature development, debugging, and performance optimization.

Sentiment Analysis :

Created a college project on Sentiment Analysis to determine user sentiment using an API for text analysis.

- Developed UI using Tkinter library.
- Analyze user-provided text to determine sentiment.

Workshops

- Training in AI with Python, Fuel Jaipur
- Training in Data Science, Ambuja Cement Foundation
