EDUCATION

- BLDEA's Dr. P. G. Halakatti College of Engineering Technology, Vijayapura** 2021-2025
B.E. in Computer Science CGPA: 8.6
- Tungal Independent PU College, Vijayapura** 2019-2021
KSSEEB, Karnataka Percentage: 92.8
- Tungal High School, Vijayapura** 2018-2019
Karnataka Secondary School, Karnataka Percentage: 92.83

EXPERIENCE

- SystemTron (Web development internship)** Nov 2023(1 month)
During my one-month web development internship at SystemTron, I worked on foundational web projects, including a Todo List, Netflix Clone, and Calculator, using HTML, CSS, and Basic JavaScript. These projects helped me strengthen my skills in front-end development, focusing on creating responsive and interactive web pages, and optimizing web performance. This internship significantly enhanced my technical skills and provided practical exposure to real-world web development challenges.
- Codesoft (Python Internship)** Dec 2023(1 month)
During my one-month Python internship at Codesoft, I developed various command-line tools, including a Password Generator and a Calculator. These projects helped me enhance my skills in Python programming, focusing on building efficient algorithms and implementing clean, reusable code. I worked extensively with Python libraries and explored error handling, input validation, and optimized logic for command-line applications. This internship provided valuable hands-on experience in developing Python-based solutions while improving my problem-solving abilities and understanding of key Python programming concepts.

PERSONAL PROJECTS

- Mental health Surveillance and Assessment Solution** 2024
Project description
* Developed a comprehensive real-time mental health monitoring system using Django, HTML, CSS, JavaScript, and SQLite3. Implemented interactive assessments for evaluating mental health and dynamic scoring mechanisms to provide personalized feedback. This project enhances mental health support by offering innovative, scalable solutions for healthcare providers and individuals seeking to monitor their well-being.
- Faculty Portal Development** 2024
Project description
* Collaborated with a team to develop a faculty portal management system for college faculty. Utilized HTML, CSS, JavaScript, and Django with SQLite3 for database management. The portal included features for profile management, course scheduling, and communication tools. This project aimed to streamline administrative tasks and improve faculty collaboration and efficiency.
- Travello | Code | Video** 2024
Project description
* Travello is a dynamic travel website designed to provide users with a comprehensive platform to explore travel destinations, manage bookings, and share experiences. Built using Django's ORM (Object-Relational Mapping) framework, it allows seamless data management and interaction with PostgreSQL for efficient storage and retrieval of travel-related data. The website includes an admin dashboard and user authentication, ensuring secure access and streamlined management for both users and administrators.
- Instagram Reel Downloader** 2024
Project description
* In this project using Python, Django, HTML, CSS, JavaScript, SQLite, and the yt-dlp library, I enabled users to download Instagram reels in both MP3 (audio) and MP4 (video) formats.

TECHNICAL SKILLS AND PERSONAL INTEREST

Languages: Python, HTML, CSS, JavaScript, Java, C, C++, PHP

Developer Tools: VSCode, Eclipse IDE, GitHub, PyCharm

Frameworks: Django, Bootstrap, Flask, jQuery, Node.js, Express.js, Angular.js, React.js

Databases: PostgreSQL, SQL, MySQL, MongoDB

Operating Systems: Unix, Linux

DevOps Tools: Docker, Kubernetes, Jenkins, Ansible, Nagios, Puppet

Build Tools: Maven, Gradle

Java Technologies: Advanced Java, J2EE, JDBC, Java Servlet, JSP

Other Tools: Tkinter, Pandas, Turtle, SMTP

AI/ML: Knowledge of Artificial Intelligence and Machine Learning

Soft Skills: Active Listening, Leadership, Strong Work Ethic

Areas of Interest: Cooking, Stock Market, Swimming

COURSES AND CERTIFICATIONS

NPTEL- Joy of Computing using Python (IIT Madras) | [Certificate](#) **Jan-Apr 2024**

NPTEL- Programming in Java (IIT Kharagpur) | [Certificate](#) **Jan-Apr 2024**

ACHIEVEMENTS

-Secured Second Prize in BLDEA College of Engineering in Tech-Mania 2024 Project exhibition on Checkers Bot Project.

-Got Elite Silver Badge in Nptel Python Exam which was conducted by IIT Madras.

-Completed 100 days coding challenge and made it for 100 days and daily sharing my information track on Linkdein.

-Won first prize in Naukri Campus in Codequezt Contest 11 for whole India.

-Solved 150 plus problem in leetcode got 50 days and 100 days badge | [Leetcode](#)
