SUMMARY

As a Computer Science student, I am passionate about applying my technical knowledge to solve real-world challenges. I am seeking a position where I can contribute my skills, continuously learn, and grow in a dynamic team environment. My goal is to make a meaningful impact while evolving both personally and professionally.

TECHNICAL SKILLS

Languages: C,C++, JavaSE, Python, HTML, CSS, JavaScript , SQL, Git, REST APIs

Frameworks: Spring Boot, Spring Core, Spring MVC, Django, Bootstrap, ReactJS

Databases: MongoDB, MySQL Workbench

EDUCATION BACKGROUND

Bachelor of Technology

Sagar Institute Of Research And Technology-Excellence
Bhopal

cumulative GPA:8.29 (as of 7th Semester)

Higher secondary Education

Govt.Model.H.S.S Damoh Madhya pradesh

Completed in 2021

Percentage: 91.8%

High School Education

Govt.Model.H.S.S Damoh Madhya pradesh

Completed in 2019

Percentage: 91.8%

PROJECTS

Real-Time Chat Room

Tech Stack: ReactJS, Spring Boot, Java, REST API, WebSocket, Socket.IO, MongoDB, JWT

Built a real-time chat app with ReactJS frontend and Spring Boot & Node.js backend. Used WebSocket & Socket.IO for instant messaging, MongoDB for storage, and JWT for authentication. Ensured seamless multi-room chat with a responsive UI and efficient REST APIs.

E-Learning Platform for Engineering Students

Tech Stack: HTML, CSS, JavaScript, Bootstrap5, SQL

Overview:

Developed a platform offering study materials, interactive quizzes, previous year papers, and alumni networking to support engineering students.

CERTIFICATIONS

Walmart USA - Advanced Software Engineering

Completed the Forage simulation, where I solved technical challenges, developed a heap data structure in Java, and designed UML and ER diagrams for database and system architecture.
