TECHNICAL SKILLS

Programming Languages: Java, JavaScript, Python

Web Development: React, Node.js, Spring Boot, RESTful APIs

Database Management: MongoDB, MySQL, PostgreSQL

Developer Tools: VS Code, NetBeans IDE, IntelliJ, Git, GitHub

Other Skills: Cybersecurity Basics, Version Control

WORK EXPERIENCE

Backend developer, Texity Technology Pvt. Ltd

Oct'2024 – Dec'2024

- Worked on the billing system to generate customer bills for a given period and send PDF reports via email.
- Utilized MongoDB for data storage and management, ensuring efficient querying and retrieval of billing data.
- Collaborated with the react-native front-end and other backend teams to ensure smooth data flow and timely report delivery.

Cisco Virtual Internship

- Completed Modules on Cloud Security, Introduction to Cybersecurity, Introduction to Packet Tracer, Cybersecurity essentials. Conducted Study on the imaginary Network, evaluated its vulnerability and Developed solution Network overcoming its weakness.
- As a Final deliverable for Project, Implemented a Network in Cisco Packet Tracer. Composed a PPT explaining the modules used in that network in depth.

CPI-D Internship

- Learned About Java Programming and OOPS Concepts. Completed MOOC Course on Great Learning Namely OOPS By Great Learning
- Build a GUI Based Application, Namely Temperature Converter. This was Created on NetBeans IDE 15 Harnessing Learnings of Internship.

PROJECTS

Spring REST API for Courses,

Spring, Java, REST, MySQL

https://github.com/Rohitanuj/Spring_Work

- Developed a RESTful API to manage courses (Course ID, Name, Description) using Spring Boot.

- Implemented CRUD operations (Create, Read, Update, Delete) to perform the required actions on the course data.
- Utilized MySQL and Spring Data JPA for seamless database interaction and storage.

MySQL Injection Prevention

PHP, React, Adobe, MySQL

- Demonstrated prevention of SQL injection using the MERN stack (MongoDB, Express, React, Node.js).
- Developed a user-friendly and responsive interface with HTML5, CSS3, JavaScript, React.js, and Apache HTTP Server to enhance usability.
- Focused on implementing security measures and best practices to avoid vulnerabilities in web applications.

Avon: MyFood App Website

HTML, CSS, JavaScript, React

- Developed the front-end for a food ordering website using HTML, CSS, and JavaScript.
- Focused on ensuring responsive design, making the website compatible across different devices and screen sizes.
- Integrated user-friendly UI elements to enhance the overall customer experience.

EDUCATION

- KIET Group of Institutions, Ghaziabad
Bachelor of Technology in Computer Science (Nov 2020 – May 2024)

ACHIEVEMENTS AND CERTIFICATS

- Solved 350+ problems on Leetcode | Ranked 2663rd in Leetcode Weekly Contest 342
- 5-star in Problem Solving and Java on HackerRank
- **Certification:** Data Structures (Coursera) – University of California, San Diego (06/2023)
- **Certification:** Algorithmic Toolbox (Coursera) – University of California, San Diego (2021)
- **Certification:** Java Programming (Coursera) – Duke University (2021)
